Attention: Mr. K. Michael Thompson
Reclamation Hydrologist

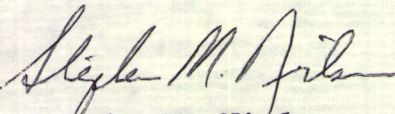

Dear Mr. Thompson;

Please find enclosed the required documentation for our reclamation plan for the Mi Vida Mine Project. Enclosed is 1) an aerial photograph, 2) a map showing surface topography superimposed over the old underground workings, 3) a topographic map showing the proposed ore and waste storage areas, and 4) State of Utah MR Form 8.

As you know from having visited the site, the area has been mined on and off for the past twentyfive years. We wish to emphasize that we intend to utilize only pre-existing dumping areas, roads and surface facilities. These are delineated on the enclosed materials.

Should you or your department require any further information in order to process our reclamation plan, do not hesitate to contact me or any member of my staff.

Sincerely yours,

Stephen M. Nielson
Vice President, Minerals West, Inc.
